Part 22.
2. Complainant is the Director of the Air and Radiation Division, United States Environmental Protection Agency (EPA), Region 5.
3. Respondent is Plaskolite, Inc., a corporation doing business in Ohio.
4. Where the parties agree to settle one or more causes of action before the filing of a complaint, an administrative action may be commenced and concluded simultaneously by the issuance of a Consent Agreement and Final Order (CAFO). 40 C.F.R. § 22.13(b).
5. The parties agree that settling this action without the filing of a complaint or the adjudication of any issue of fact or law is in their interest and in the public interest.
6. Respondent consents to entry of this CAFO and the assessment of the specified civil penalty, and agrees to comply with the terms of this CAFO.

Jurisdiction and Waiver of Right to Hearing

7. Respondent admits the jurisdictional allegations in this CAFO, and neither admits nor denies the factual allegations in this CAFO.
8. Respondent waives its right to request a hearing as provided at 40 C.F.R. § 22.15(c), any right to contest the allegations in this CAFO, and its right to appeal this CAFO.

Statutory and Regulatory Background

9. Pursuant to Section 112(d) of the Act, 42 U.S.C. § 7412(d), on November 10, 2003, EPA promulgated National Emission Standards for Hazardous Air Pollutants (NESHAP) for Miscellaneous Organic Chemical Manufacturing at 40 C.F.R. Part 63, Subpart FFFF, 40 C.F.R. §§ 63.2430 through 63.2550 (MACT Subpart FFFF or the MON).
10. MACT Subpart FFFF applies to all owners and operators of miscellaneous organic chemical manufacturing process units (MCPUs) that are located at, or are part of, a major source of hazardous air pollutants emissions.
11. The owner or operator of existing MCPUs may comply with certain equipment leak requirements set forth in 40 C.F.R. § 63.2480 of the MACT Subpart FFFF by complying with 40 C.F.R. Part 63, Subpart H, which is also known as the NESHAP for Equipment Leaks.
12. The NESHAP for Equipment Leaks (Subpart H of 40 C.F.R. Part 63) requires that any open-ended valve or line be equipped with a cap, blind flange, plug, or second valve. Further, the cap, blind flange, plug, or second valve must seal the end at all times except during operations requiring process fluid flow through the open-ended valve or line. 40 C.F.R. §§ 63.167(a)(1) and (2).
13. Section 113(a)(3) of the Act, 42 U.S.C. § 7413(a), authorizes the Administrator of EPA (the Administrator) to initiate an enforcement action whenever the Administrator finds, among other things, that any person has violated or is in violation of a requirement or prohibition of Title V of the Act, or any rule promulgated, issued or approved under Title V of the Act.
14. The Administrator may assess a civil penalty of up to \$27,500 per day of violation, up to a total of \$220,000, for violations that occurred from January 31, 1997 through March 15, 2004, up to \$32,500 per day of violation, up to a total of \$270,000, for violations that occurred after March 15, 2004 through January 12, 2009, and up to \$37,500 per day of violation, up to a total of \$295,000, for violations that have occurred after January 12, 2009, pursuant to Section 113(d)(1) of the Act, 42 U.S.C. § 7413(d)(1), and 40 C.F.R. Part 19.

Factual Allegations

15. Respondent owns and operates an organic chemical manufacturing facility, located at 1770 Joyce Avenue, Columbus, Ohio (Facility).
16. The Facility is subject to 40 C.F.R. Part 63, Subpart FFFF (MACT Subpart FFFF or the MON).
17. Respondent has opted to comply with leak detection and repair provisions of the MACT Subpart FFFF for existing MCPUs at the Facility by complying with the NESHAP for Equipment Leaks at 40 C.F.R. Part 63, Subpart H.

18. The Facility contains three polymerization reactors (Reactor, A, Reactor B and Reactor C) that contain open-ended valves or lines that are subject to 40 C.F.R. § 63.167 of the NESHAP for Equipment Leaks.
19. Respondent is also subject to its Title V Permit, issued by the Ohio Environmental Protection Agency on December 12, 2001 for the Facility.
20. On June, 16, 2009, EPA inspected the Facility in order to determine compliance with certain provisions of the Act as well as its Title V Permit.
21. During the June 16, 2009 inspection, EPA discovered that two of the Facility's open-ended lines (Reactor B and Reactor C) emitted volatile organic compounds and were not sealed.
22. On December 1, 2009, EPA issued a Finding of Violation (FOV) to Respondent for violating 40 C.F.R. § 63.2480(a), 40 C.F.R. § 63.167(a)(2) and the Facility's Title V Permit.
23. On December 16, 2009, EPA had a teleconference with Respondent to discuss the violations alleged in the FOV and any actions the company has taken to come into compliance.
24. During the December 16, 2009 teleconference, Respondent stated that the additive funnels on Reactor B and Reactor C were supplemented with hinged lids and brackets on July 29, 2009.

Violations

25. Respondent failed to seal two of its open-ended lines (Reactor B and Reactor C) in violation of 40 C.F.R. § 63.2480(a), 40 C.F.R. § 63.167(a)(2) and the Facility's Title V permit (condition III.A.II.4 for Emissions Unit P014 (Reactor B) and condition III.A.II.4 for Emissions Unit P052 (Reactor C)).

Civil Penalty

26. Based on analysis of the factors specified in Section 113(e) of the Act, 42 U.S.C. § 7413(e), the facts of this case, Respondent's cooperation during and after the inspection, and information that Respondent has submitted, EPA has determined that an appropriate civil penalty to settle this action is \$ 3,000.
27. Within 30 days after the effective date of this CAFO, Respondent must pay the \$ 3,000 civil penalty by sending a cashier's or certified check payable to the "Treasurer, United States of America" to the following address:

29. This civil penalty is not deductible for federal tax purposes.
30. If Respondent does not pay timely the civil penalty, EPA may bring an action to collect any unpaid portion of the penalty with interest, handling charges, nonpayment penalties and the United States' enforcement expenses for the collection action under Section 113(d)(5) of the

Act, 42 U.S.C. § 7413(d)(5). The validity, amount and appropriateness of the civil penalty are not reviewable in a collection action.

31. Interest will accrue on any overdue amount from the date payment was due at a rate established under 31 U.S.C. § 3717. Respondent will pay a \$15 handling charge each month that any portion of the penalty is more than 30 days past due. General Provisions

32. This CAFO resolves only Respondent's liability for federal civil penalties for the violations alleged in the Violations section of this CAFO.
33. This CAFO does not affect the right of EPA or the United States to pursue appropriate injunctive or other equitable relief or criminal sanctions for any violation of law.
34. This CAFO does not affect Respondent's responsibility to comply with the Act and other applicable federal, state and local laws, and regulations. Except as provided in paragraph 32 above, compliance with this CAFO will not be a defense to any actions subsequently commenced pursuant to federal laws and regulations administered by Complainant.
35. Respondent certifies that it is complying fully with the NESHAP for Equipment Leaks at 40 C.F.R. Part 63, Subpart H.
36. This CAFO constitutes an "enforcement response" as that term is used in "EPA's Clean Air Act Stationary Source Civil Penalty Policy" to determine Respondent's "full compliance history" under Section 113(e) of the Act, 42 U.S.C. § 7413(e).
37. The terms of this CAFO bind Respondent, and its successors, and assigns.
38. Each person signing this consent agreement certifies that he or she has the authority to sign this consent agreement for the party whom he or she represents and to bind that party to its terms.
39. Each party agrees to bear its own costs and attorneys' fees in this action.
40. This CAFO constitutes the entire agreement between the parties.
